1. The Polish State Economic Planning Commission (P.K.P.G.) has completed four plans of sugar factories and other industrial plants of secondary importance for China. The latest plan, completed in January 1955, is of a large sugar factory to be built on the Hsinshui River (N 36, E 110).
2. The plans, which include a detailed estimate of costs, have been sent to China for execution. Nothing is known about further stages of work on the plans.
3. Poland's technical assistance to China is greatly exaggerated in official propaganda.
